

The background image is a rich, textured composition of tropical elements. In the upper half, several vertical panels of fabric are displayed, featuring patterns like stripes, geometric motifs, and abstract brushstrokes in shades of blue, green, and yellow. Large, vibrant green leaves of tropical plants, including a prominent Bird of Paradise on the left and a Philodendfon on the right, frame the scene. In the foreground, a dark wooden table holds a stack of folded fabrics in deep red, blue, and green. To the right, a glass cloche contains a small, dried botanical specimen. The overall lighting is warm and directional, creating strong highlights and shadows that emphasize the textures of the fabrics and foliage.

# TROPIC OF CAPRICORN

This season we were inspired by a craving for the type of indoor outdoor living that comes naturally in a tropical setting, like the ease of a Hawaiian lanai. Saturated colors and unexpectedly plush textures bring this feeling to life over two new outdoor-suitable introductions, perfect for home and hospitality.
